## Objective

To grow as a junior full stack developer focused on designing and building successful code while improving my skills as a developer and team member.

## Skills

- Proficient in C# and Visual Studio. Use of Frameworks such as .Net, .Net Core, Entity, Discord.Net, ASP.NET.
- Experience with Database languages such as SQL, SQLite(3), SQL Server, and Microsoft SQL Server Management Studio and familiar with stored procedures and relational databases
- Experience with front end stacks, specifically HTML5, CSS3, JavaScript and front-end frameworks such as Bootstrap (CSS), Django (Python), jQuery (JavaScript) and Razor/ASP.NET
- Familiar with web based design concepts such as MVC (model view controller)
- Additional programming language experience in Python, Java, JSON, Lua, XML
- Git and Version Control experience, as well as Agile methodologies like Azure and Scrum
- 1000+ hours of total development time over 2 years

## Experience

Jul 20 **The Tech Academy (TTA), Portland, OR** - *Full Stack Software Developer*

- With Scrum team members, developed an ASP.NET based theatre website for TTA's client
- With Scrum team members, created a website app using Python and Python framework Django that adds, edits, and removes entries from a database through the website created with HTML and CSS
- Participated in daily scrum standup meetings for open communication of concerns or roadblocks
- Gained experience using Version Control. Using branches, commits, repositories, pushing and pulling commits to be merged into the master branch
- Used code comments to inform subsequent developers of key software design implementation

Jun 16 - Aug 19 **Heritage Eagle Bend Golf Club, Aurora CO** - *Front Desk Receptionist*

- Guest and reservation management; event coordination; property event communications
- Developed knowledge of club events in support of the Event Coordinator for ticketed events
- Provided flexibility by learning additional club duties to provide surge capability for high capacity events

## Education

September 2019 - July 2020 **The Tech Academy, Portland, OR (Online)** - *Full Stack Developer Certificate*

- During my time at the Tech Academy, I spent over 1000 hours learning various programming languages and standard practices in the industry and helped me get my foot into the great world of software development!
