Objective

To grow as a junior full stack software engineer and team member to design, build, and maintain successful applications and software technologies.

Skills

- Ability to absorb new information and technologies quickly; striving to maintain 'coachability'
- Familiarity with the entire Software Development Life Cycle and Agile/Scrum methodologies
- Constantly refining personal techniques and practices to remain efficient among the team and the industry.
- Full stack experience working with C# (.Net Framework/Core), JS/TypeScript, React.js, HTML/CSS, and various SQL technologies. Additional practical knowledge of RESTful API principles and AWS technologies
- Persistent clarity of mind as to maintain efficiency during daily work or in high-stress environments
- Strong value of communication and cooperation skills to convey essential information and meet deadlines at or before expectations

Experience

Jul 21 - Present **Experian Health (Remote)** - *Software Development Engineer*

- Use of Atlassian software suite to coordinate work and communicate with team members
- Integrating into a dynamic development environment where flexibility and responsiveness are required
- Working with talented individuals to design, implement, test, and upkeep live client facing software
- Collaboration with newer team members to raise team efficiency and reinforce personal understanding
- Expanding experience by working outside of personal 'comfort zone' to gain familiarity with new information

Jul 20 **The Tech Academy (TTA), Portland, OR** - *Full Stack Software Developer*

- With Scrum team members, developed an ASP.NET based theatre website for TTA's client
- With Scrum team members, created a website app using Python and Python framework Django
- Participated in daily scrum standup meetings for open communication of concerns or roadblocks
- Used code comments to inform subsequent developers of key software design implementation

Jun 16 - Aug 19 **Heritage Eagle Bend Golf Club, Aurora CO** - *Front Desk Receptionist*

Education

September 2019 - July 2020 **The Tech Academy, Portland, OR (Online)** – *Full Stack Developer Certificate*

- During my time at the Tech Academy, I spent over 1000 hours learning various programming languages and standard practices in the industry and helped me get my foot into the great world of software development!
